

G A R I

Global Accessibility Reporting Initiative

BEREC Conference on Accessibility in Communications
Brussels, Belgium
4 March 2015

About MMF

International association of telecommunications equipment manufacturers with an interest in mobile or wireless communications, focusing on:

EMF & Health

G A R I

GLOBAL ACCESSIBILITY
REPORTING INITIATIVE

FAKE
Counterfeit
Devices

Members: Alcatel Mobile Phones, Apple, Cisco, Ericsson, Intel, LG, Microsoft, Motorola Mobility, Motorola Solutions, Samsung, Sony

G A R I

Many say
technologies make things easier,
for people with disabilities
technologies make things possible.

Knut Ellingsen, Vice-President of the European Federation of Hard of Hearing (EFHOH), Zero Project Conference, 27-28 February 2014, Vienna, Austria

GARI stands for

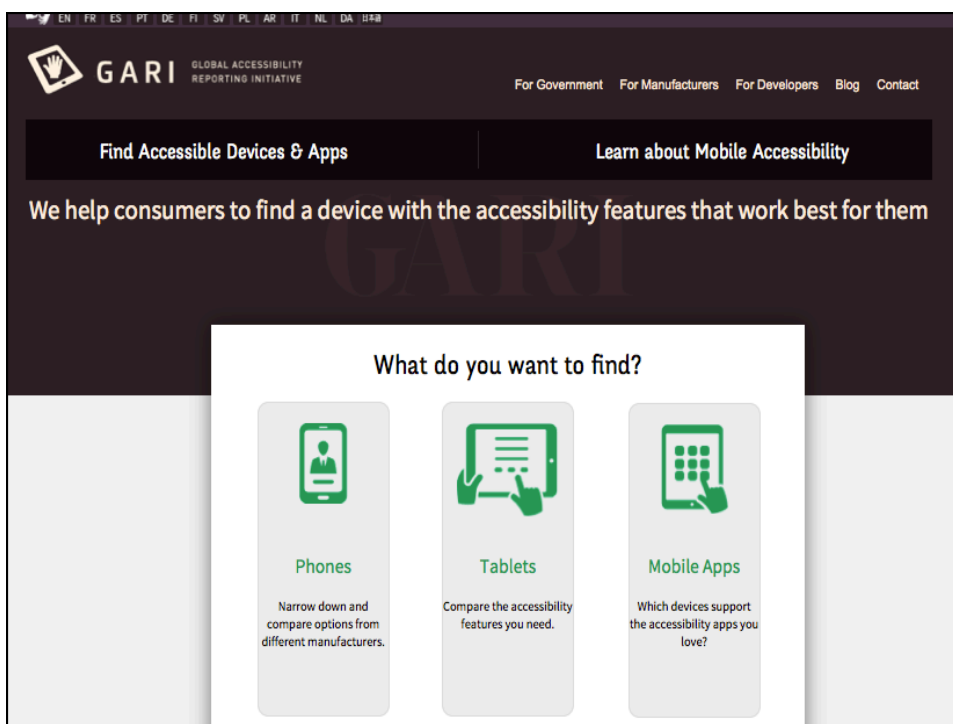

- **G**lobal **A**ccessibility **R**eporting **I**nitiative
- 1,100+ models and all world regions
- centralised source of information
- 200+ accessibility related apps
- consumer guidance & producer reporting tool
- 14 written languages + 1 sign language (ASL)

GARI's purpose

help consumers
to find a mobile device
with the accessibility features
that work best for them

The slide features the MMF Mobile Manufacturers Forum logo in the top left corner. The title 'GARI's purpose' is in a large, bold, blue font. The main text is centered in a black font.

Find Accessible Devices & Apps **Learn about Mobile Accessibility**

We help consumers to find a device with the accessibility features that work best for them

What do you want to find?

- Phones**
Narrow down and compare options from different manufacturers.
- Tablets**
Compare the accessibility features you need.
- Mobile Apps**
Which devices support the accessibility apps you love?

The screenshot shows the GARI website with a dark header and a white content area. The main navigation bar includes links for 'Find Accessible Devices & Apps' and 'Learn about Mobile Accessibility'. Below this, a large banner states the organization's mission. A central white box titled 'What do you want to find?' contains three green icons and text boxes for 'Phones', 'Tablets', and 'Mobile Apps', each with a brief description of the service.

Easy to Press Keys	Yes	Yes	Yes

Mobile accessibility is about ...

- **hardware:** 2-way camera, Adapt Sound, increased max volume, ...
- **software:** screen readers, loop function, captioning, ...
- **3rd party apps:** sign language dictionary, speech-to-text, crowd sourced help ...

- GARI long-term objective**
- MMF
Mobile Manufacturers
Forum
- **MMF offers and requests cooperation** in order to establish:
 - **one global database** for accessibility requirements in all markets
 - **centralised platform** on mobile accessibility
 - promotion of mobile accessibility
 - reporting tool & consumer guidance
 - platform for exchange of information between stakeholders
