

Stefaan Vyverman is in charge of the Telecom Market & Media Department and the Assignments Department. He is also responsible for the internal department Logistics & Purchases.

Stefaan Vyverman holds master degrees in Business Economics and Communication Studies (UGent).

From 1993 to 1997, he worked at the Cabinet of the Flemish Prime Minister Luc Van Den Brande, where he advised on media & telecommunications policy and general economic affairs. He then built up an extensive telecoms expertise within Proximus's Wholesale Department. Stefaan has been working as a telecom consultant since 2015. In that capacity, he has directed a wide range of projects in the telecom sector in the areas of strategy, procurement, wholesale & B2B and market localization for both fixed and mobile technologies. Since 2019, Stefaan was also the head of 5G launch Benelux at Capgemini Invent.
